STANDARD CALIBRE

The EDAM-40 is an Australian-developed 40mm munition designed to deploy a 2.8 metre entanglement net in under one second.

Engineered for integration with standard 40mm grenade launchers, it provides soldiers with an immediate counter-drone response against FPV UAS threats.

KEY FEATURES

- ◇ Non-explosive net entanglement system
- ◇ Delivers squad-level counter-UAS capability
- ◇ Fast reload for sustained engagement
- ◇ Uses existing in-service 40mm platforms
- ◇ No extra equipment, minimal training
- ◇ Australian sovereign design

STRATEGIC PARTNERSHIP OPPORTUNITY

Seeking strategic partnership with prime defence contractors for further development and commercialisation.
